OVERARCHING PREMISE:

The Republican Party in the State of Idaho is in turmoil:

- Idaho Republicans claim to be Republicans, and they vote otherwise;
- A very high percentage of State House and Senate Education Committees’ Republican members are educators. ALL educators are firmly tied to the unions and the unions’ illustrious retirement benefits, so Republican educators vote, an extremely high percentage of the time, against any bills that tout free-market forces and competition, which, for example, would greatly diminish the union-dominated public education system;
- Republicans are not team players; unlike Democrats, they do not stick together in a united front; and
- “Connections through influence” is the order of the day via the “good-ol’-boy” Republican network; not objective, best-for-Idaho and Idaho-kids-first decisions.

PRECINCT #24 PURPOSE:

To win elections for *true” Republican candidates (*definition - see page three*) in the State of Idaho, it is incumbent upon the Bonneville County Precinct #24 team members to educate voters about “true” Republicans. The Team plans to create, and maintain, continued and consistent contact with, and interest and support by, Precinct #24 members throughout the Precinct.

PRECINCT #24 STRATEGY TO ACCOMPLISH PURPOSE:

Precinct #24 Team Members know elections are not won at the state, national, or even county level; elections are won in the individual precincts, one vote at a time, with the help of grass-root leaders. With that premise as a foundation, the Precinct #24 Team will work diligently, one vote at a time, by utilizing the below strategy to success.

A *TRUE” REPUBLICAN

The Republican Party’s most important core beliefs, as outlined on their Republican National Committee’s website, are as follows:

- The best government for the people is one that is closest to the people, and therefore the government should not interfere unless they are needed.
- The strength of the nation lies within the individuals who live in the country, and therefore feel that the individual’s freedom, dignity, and responsibility must come first and foremost in our government.
- Free enterprise and encouraging individual initiative are what has brought the country economic prosperity in the past, and what will continue to bring it prosperity today.
- The government must practice fiscal responsibility, and allow its people to keep the money that they work for.
- America should work to protect national freedom first, while working to spread peace, freedom, and human rights in the world.

SUMMARY

One of the main duties of the Bonneville County Precinct #24 Precinct Committee Officer and Assistant Committee Officers is to promote the Republican party to the Precinct, as well as working together toward uniting the Republican Party and promoting its overall goals.

Listening to, working closely with, and spending time with, the public that make up Precinct #24 is of paramount importance to the Precinct #24 team in its efforts to accomplish its objectives and advance the Republican Party in Bonneville County, as well as throughout the State of Idaho.

Strategically, the Bonneville County Precinct #24 PCO and APCOs will accomplish these goals by diligently executing and implementing the aforementioned, itemized tactical action items.
