BIO

Carolyn Harrison is a ranch girl from the State of Idaho and a graduate of the University of Idaho, where she studied French and Spanish and attained a Bachelor of Arts (B.A.) Degree and Teacher's Certificate in each language, graduating with a 3.4 GPA. Ms. Harrison has over 47 years of technology licensing, marketing, public relations, copy editing, document composition, written material revision, and technical writing.

In 2013, Carolyn and her partner, Tom Harrison, signed an Exclusive License Agreement with the inventor and designer of the **PENTA BUSTER** debris-removal-and-access tool to market and sell the product. Activities included customer contact, business plan composition and editing, as well as marketing material and website design.

In 2005, Ms. Harrison founded The Word Doctor, a copy editing firm that worked exclusively for Cactus Communications, Inc., a global scientific communications company that worked with international clients. Carolyn was involved in the correction of grammar errors and enhancement of Cactus's clients' writing for clarity, conciseness, and variety.

From 2002 to the present, Ms. Harrison helped establish The Harrison Group, LLC, Technology Commercialization Company. Carolyn is the Managing Partner and involved in the licensing of companies' technologies, as well as the promotion of firms' technology commercialization, new business development, sales, and marketing efforts. Supporting activities included business plan composition and editing, as well as market material and website design,

As a Senior Account Executive at the Department of Energy's Idaho National Laboratory (INL) from 1991 to 1999, Ms. Harrison was in charge of coordinating the Lab's technology transfer activities with The Big Three auto companies, where she closed the largest Cooperative Research and Development Agreement (CRADA) in the Lab's history, at that time (\$25M). Technical writing, as well as spelling, and grammar correction of proposals and technical papers were an integral part of the business development activities in this position.

From 1980 to 1990, Ms. Harrison was also an Associate and Director of Business Development for the largest architectural/engineering company in the world: Hellmuth, Obama & Kassabaum, Inc. (HOK). While at the firm, Ms. Harrison directed the business development activities in HOK's Tampa, Dallas, and Denver offices.

During her 12 years in Denver, Colorado, from 1974 to 1980, Carolyn was also the Manager of two Relocation Centers for the largest real estate company in the State of Colorado, at that time: Van Schaack & Company.

Carolyn's first job out of college from 1971 to 1973 was in San Diego, California, as an Associate in the Public Relations Department for a San Diego County start-up company: Stability, Environment, Employment, and Development (SEED) for San Diego County. In this capacity, she worked with the former City Manager of San Diego and interacted directly with officials in San Diego County to introduce and market the Company as it transitioned from its start-up to early-development phase. Market material design, proposal composition, marketing, and public relations were the essence of this position.

In 1992, Ms. Harrison wrote the proposal to, and received a grant for \$250K from, the M. J. Murdock Charitable Trust to construct an indoor soccer arena for the YMCA in Ammon, Idaho. In 1993, Carolyn also was involved in the Idaho Reading Indicator (IRI) program for Sunnyside Elementary School in Idaho Falls, Idaho, as well as the "Where are the Scientists" education program for Idaho National Laboratory to introduce women scientists to K-12 students. In 2021, Carolyn assisted in coordinating a fund-raising effort for the Idaho Falls Police Department to support funding in the amount of \$15K for stress-related outcomes from their demanding profession.
